## THE COMPANY

MLB Manufacturers started business in 1979 and the factory is still situated in rural Taranaki, New Zealand

The Company was incorporated in 1986 as M & L Brown Limited. Over the years, the NZ owners Lorraine and the late Mike Brown have grown the brand 'Musket' with the assistance of dedicated staff and the development of innovative manufacturing techniques from its production workshop in Waitara.

The creation of a heavy and light duty range of 'Musket' Mufflers has given the Company an outstanding reputation for customer satisfaction, quality and value. A commitment to excellence will see us continue to grow an extensive client base for the Musket brand in our New Zealand and overseas export markets.

We are proud to have our skilled production staff manufacture to specifications you supply, and we are happy to assist your Company by providing an after sales service.

Thanks for your custom, our Company appreciates your business.
